

Recommended Setup:

Flight Control Setup:
 Elevons - Elevator +/- .5 in, Ailerons +/- .75 in.
 Canards - +/- 1.0 in.
 Mix the Canards into the Elevator channel. If you cannot mix your canards, you can always make them a stationary surface and increase your Elevator throws.
 Expos at 40% for both Elevators and Ailerons.

Motor(s)
 Hacker A20-20L Outrunner with an EP9050 prop OR
 Himaxx 2015-4100 with 4.33:1 gearing and APC 9x6 SF prop
 Both of these motor combinations produce 24 oz + of static thrust.
 1300mah 11.1v Lipo Battery
 15 -- 20 amp ESC
